

SCIENTIST QUESTIONS

In 3 short paragraphs write a prepared response for the television crew who are soon to interview you, regarding the latest events in Newcastle. Events and panic is escalating, so you must be simple and clear language so all viewers can understand you.

They have given you some questions to consider;

- 1 Should the people of Newcastle feel safe with the news of a small magnitude Earthquake arriving in their city?

2. Have Earthquakes always occurred on Earth?

3. What specific structures within the Earth move, bump and slide?

4. What is Seismic activity? Can people on the earth see and feel it?

6. Where was the latest Earthquake recorded at?

8. Why should we trust Scientists like yourself?
